PROFILE

An impact driven and experienced software developer with a passion for crafting efficient and scalable software applications. Proficient in Javascript, PHP programming languages and frameworks, I specialize in full-stack development and have a keen interest in problem-solving. Committed to staying current with industry trends and continuously enhancing skills.

EXPERIENCE

FULLSTACK DEVELOPER / TEAM MEMBER

Precise Platforms | Yaba, Lagos | 2023 - present

- Part of a team who successfully built and delivered an in-house software infrastructure (Precise Tracker) for media monitoring, News fetching and sentiment analysis. Application was built on Laravel.
- Contributed to the development of several projects including PollTeon, NewsTeon, SurveyTeon, TrendTeon, which were all built on React, Typescript and Nextjs. Links to projects can be found in my portfolio above.
- Collaborated effectively with project managers and designers to ensure the development, testing, scheduling, and validation of content, product assortment, and UI functionality in alignment with business expectations before publication.

FRONTEND DEVELOPER/ TUTOR

Codar | Ikeja, Lagos | 2021 - 2023

- Delivered comprehensive lessons and interactive training sessions encompassing both established and cutting-edge front-end technologies..
- Facilitated the creation of various side projects, consistently aligning with client objectives and exceeding their expectations through innovative design and development approaches.
